About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

The Open Budget Survey (OBS) is the world’s only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 8th edition of the OBS covers 120 countries.

Visit www.internationalbudget.org/open-budget-survey for more information, including the full OBS methodology, the 2021 Global and Regional Reports, findings for all surveyed countries, and the Data Explorer.

Angola's transparency score of **30** in the OBS 2021 is moderately lower than its score in 2019.

What changed in OBS 2021?

Angola has decreased the availability of budget information by:

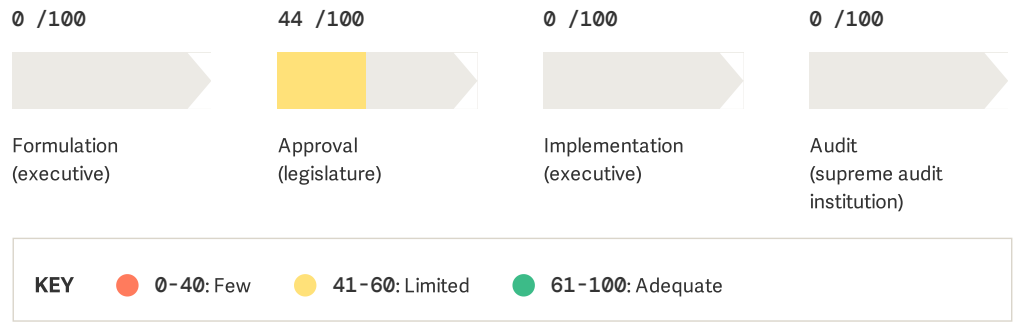

- Failing to publish the In-Year Reports online in a timely manner.

Recommendations

Angola should prioritize the following actions to improve budget transparency:

- Publish the In-Year Reports and Audit Report online in a timely manner.
- Produce and publish the Pre-Budget Statement and Mid-Year Review online in a timely manner.
- Include additional information in the Executive's Budget Proposal, for example on expenditure and revenue estimates for a multi-year period and previous fiscal years; on the composition of total debt outstanding at the end of the budget year; and on new policy proposals, extra-budgetary funds, contingent and future liabilities, tax expenditures, and non-financial data on inputs and results.
- Include additional information in the Year-End Report, for example on individual sources of revenue, debt composition and on the accuracy of original macroeconomic projections.

Extent of opportunities for public participation in the budget process

Recommendations

To further strengthen public participation in the budget process, Angola's Ministério das Finanças should prioritize the following actions:

- Implement mechanisms to engage the public and civil society organizations during budget formulation, including feedback on how participants' inputs have been considered in the budget proposal.
- Pilot mechanisms to engage citizens to monitor budget implementation.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Angola's Assembleia Nacional has established public hearings related to the approval of the annual budget, but should also prioritize the following actions:

- Allow any member of the public or any civil society organization to testify during its hearings on the budget proposal prior to its approval, publishing a report about the contributions received.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Angola's Tribunal de Contas should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to assist in developing its audit program and to contribute to relevant audit investigations.

Budget Oversight

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Angola, together, provide weak oversight during the budget process, with a composite oversight score of **33** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

Legislative oversight

Audit oversight

KEY ● 0-40: Few ● 41-60: Limited ● 61-100: Adequate

Recommendations

Angola's Assembleia Nacional provides limited oversight during the planning stage of the budget cycle and weak oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- The legislature should debate budget policy before the Executive's Budget Proposal is tabled and approve recommendations for the upcoming budget.
- Legislative committees should examine the Executive's Budget Proposal and publish reports with their analysis online.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.

- In practice, ensure the legislature is consulted before the executive shifts funds specified in the Enacted Budget between administrative units or spends any unanticipated revenue during the budget year.
- A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Angola Tribunal de Contas, the following actions are recommended:

- Require legislative or judicial approval to appoint the head of the supreme audit institution.
- Ensure the supreme audit institution has adequate funding to perform its duties, as determined by an independent body (e.g., the legislature or judiciary).
- Ensure audit processes are reviewed by an independent agency.

The emerging practice of establishing independent fiscal institutions

Angola does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

**These indicators are *not* scored in the Open Budget Survey.*

Methodology

- Only documents published and events, activities, or developments that took place through 31 December 2020 were assessed in the OBS 2021.
- The survey is based on a questionnaire completed in each country by an independent budget expert:
Sergio Zeferino de Assis Calundungo
Acção para o Desenvolvimento Rural e Ambiente (ADRA)
Paceta Farinha Leitão nº27, Luanda, Angola
scalundungo@googlemail.com
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Angola by a representative of the Ministério das Finanças.
