## About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

**The Open Budget Survey (OBS)** is the world’s only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 8th edition of the OBS covers 120 countries.

Visit [www.internationalbudget.org/open-budget-survey](http://www.internationalbudget.org/open-budget-survey) for more information, including the full OBS methodology, the 2021 Global and Regional Reports, findings for all surveyed countries, and the Data Explorer.

Qatar's transparency score of **2** in the OBS 2021 is near its score in 2019.

## What changed in OBS 2021?

Qatar has increased the availability of budget information by:

- Including a macroeconomic forecast, detailed policy initiatives and information on public debt in its simplified, citizens-friendly version of the Budget Law.

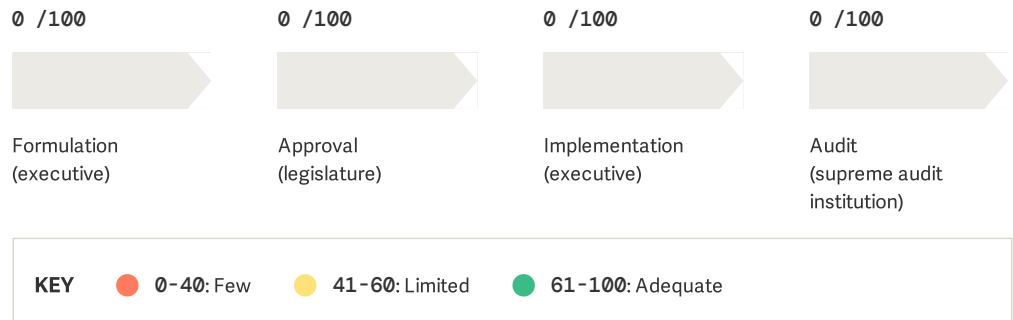

## Recommendations

Qatar should prioritize the following actions to improve budget transparency:

- Continue to improve the comprehensiveness of the Citizens Budget.
- Continue to publish In-Year Reports online in a timely manner. While the Ministry of Finance did not publish In-Year Reports in 2020 - the budget year under review in this Open Budget Survey - it began publishing them the following year.
- Publish the Pre-Budget Statement, Executive's Budget Proposal, Enacted Budget, Mid-Year Review, Year-End Report and Audit Report online in a timely manner.

# Extent of opportunities for public participation in the budget process

## Recommendations

To further strengthen public participation in the budget process, Qatar's Ministry of Finance should prioritize the following actions:

- Pilot mechanisms to engage the public during budget formulation and to monitor budget implementation.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Qatar's Shura Council should prioritize the following actions:

- Allow members of the public or civil society organizations to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Qatar's State Audit Bureau should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to assist in developing its audit program and to contribute to relevant audit investigations.

# Budget Oversight

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Qatar, together, provide weak oversight during the budget process, with a composite oversight score of **6** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

## Legislative oversight

## Audit oversight

**KEY** ● 0-40: Few ● 41-60: Limited ● 61-100: Adequate

## Recommendations

Qatar's Shura Council provides weak oversight during the planning stage of the budget cycle and no oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- The legislature should debate budget policy before the Executive's Budget Proposal is tabled and approve recommendations for the upcoming budget.
- Legislative committees should examine the Executive's Budget Proposal and publish reports with their analysis online.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.

- A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Qatar State Audit Bureau, the following actions are recommended:

- Require legislative or judicial approval to appoint and remove the head of the supreme audit institution.
- Grant the supreme audit institution full powers to undertake audits as it sees fit.
- Ensure audit processes are reviewed by an independent agency.

### **The emerging practice of establishing independent fiscal institutions**

Qatar does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

# Methodology

---

- Only documents published and events, activities, or developments that took place through 31 December 2020 were assessed in the OBS 2021.
- The survey is based on a questionnaire completed in each country by an independent budget expert:

For inquiries please contact the International Budget Partnership

- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert.
