## About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

**The Open Budget Survey (OBS)** is the world’s only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 8th edition of the OBS covers 120 countries.

Visit [www.internationalbudget.org/open-budget-survey](http://www.internationalbudget.org/open-budget-survey) for more information, including the full OBS methodology, the 2021 Global and Regional Reports, findings for all surveyed countries, and the Data Explorer.

Spain's transparency score of **54** in the OBS 2021 is near its score in 2019.

## What changed in OBS 2021?

Spain has increased the availability of budget information by:

- Publishing the Year-End Report online in a timely manner.

However, Spain has decreased the availability of budget information by:

- Reducing the information provided in the Pre-Budget Statement.

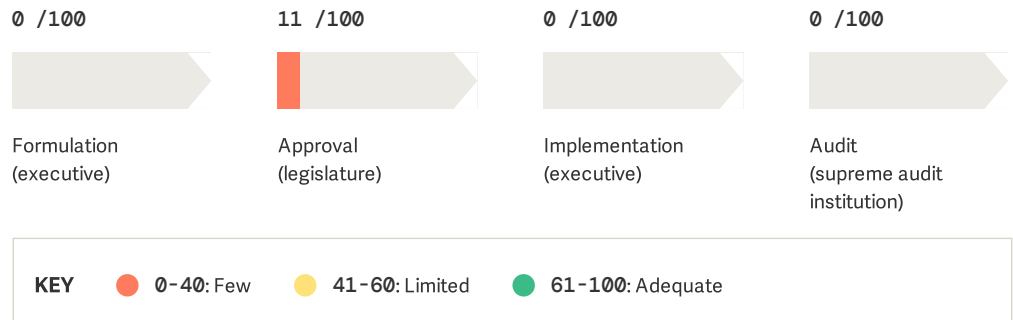

## Recommendations

Spain should prioritize the following actions to improve budget transparency:

- Produce and publish the Citizens Budget and Mid-Year Review online in a timely manner.
- Improve the level of detail, scope and consistency of implementation reports (both in-year and year-end), so they effectively match the Enacted Budget.
- Include in the Year-End Report comparisons between borrowing estimates and actual outcomes, comparisons between planned nonfinancial outcomes and actual outcomes and comparisons between the original macroeconomic forecast and actual outcomes.
- Improve the comprehensiveness of the Pre-Budget Statement by including a discussion of policy priorities, as well as a projection of total expenditures and revenues associated with these policies, for the budget year.
- Improve the comprehensiveness of the Audit Report by including, among others, an executive summary of the document.

# Extent of opportunities for public participation in the budget process

## Recommendations

To further strengthen public participation in the budget process, Spain's Ministerio de Hacienda should prioritize the following actions:

- Pilot mechanisms to engage the public during budget formulation and to monitor budget implementation.
- Actively engage with vulnerable and underrepresented communities, either directly or through civil society organizations representing them.

Spain's Cortes Generales has established public hearings related to the approval of the annual budget, but should also prioritize the following actions:

- Allow any member of the public or any civil society organization to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Spain's Tribunal de Cuentas should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to assist in developing its audit program and to contribute to relevant audit investigations.

# Budget Oversight

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Spain, together, provide adequate oversight during the budget process, with a composite oversight score of **61** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

## Legislative oversight

## Audit oversight

**KEY** ● 0-40: Few ● 41-60: Limited ● 61-100: Adequate

## Recommendations

Spain's Cortes Generales provides adequate oversight during the planning stage of the budget cycle and weak oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- A legislative committee should examine in-year budget implementation and publish reports with their findings online.
- In practice, ensure the legislature is consulted before the executive shifts funds specified in the Enacted Budget between administrative units or reduces spending due to revenue shortfalls during the budget year.

To strengthen independence and improve audit oversight by Spain's Tribunal de Cuentas, the following actions are recommended:

- Ensure audit processes are reviewed by an independent agency.

### **The emerging practice of establishing independent fiscal institutions**

Spain's independent fiscal institution (IFI) is the Autoridad Independiente de Responsabilidad Fiscal. Its independence is set in law, and it reports to the legislature. It publishes its own macroeconomic and fiscal forecasts, and its own cost estimates of some new policy proposals.

*The indicators on IFIs are not scored in the Open Budget Survey.*

# Methodology

---

- Only documents published and events, activities, or developments that took place through 31 December 2020 were assessed in the OBS 2021.
- The survey is based on a questionnaire completed in each country by an independent budget expert:  
David Cabo  
Fundación Ciudadana Civio  
  
contacto@civio.es
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Spain by a representative of the Ministerio de Hacienda.
