## About the survey

Government budget decisions – what taxes to levy, what services to provide, and how much debt to take on – have important consequences for all people in society. When governments provide information and meaningful channels for the public to engage in these decisions, we can better ensure public money is spent on public interests.

**The Open Budget Survey (OBS)** is the world’s only independent, comparative and fact-based research instrument that uses internationally accepted criteria to assess public access to central government budget information; formal opportunities for the public to participate in the national budget process; and the role of budget oversight institutions, such as legislatures and national audit offices, in the budget process.

The survey helps local civil society assess and confer with their government on the reporting and use of public funds. This 8th edition of the OBS covers 120 countries.

Visit [www.internationalbudget.org/open-budget-survey](http://www.internationalbudget.org/open-budget-survey) for more information, including the full OBS methodology, the 2021 Global and Regional Reports, findings for all surveyed countries, and the Data Explorer.

# Transparency

This part of the OBS measures public access to information on how the central government raises and spends public resources. It assesses the **online availability, timeliness, and comprehensiveness** of eight key budget documents using 109 equally weighted indicators and scores each country on a scale of 0 to 100. **A transparency score of 61 or above indicates a country is likely publishing enough material to support informed public debate on the budget.**

Tajikistan has a transparency score of **16** (out of 100).

## What changed in OBS 2021?

Tajikistan has increased the availability of budget information by:

- Publishing the Citizens Budget online.

- Publishing the In-Year Reports online in a timely manner.
- Increasing the information provided in the Pre-Budget Statement.

However, Tajikistan has decreased the availability of budget information by:

- Failing to have the Executive's Budget Proposal online and available to the public during the time frame it was being debated in the legislature.

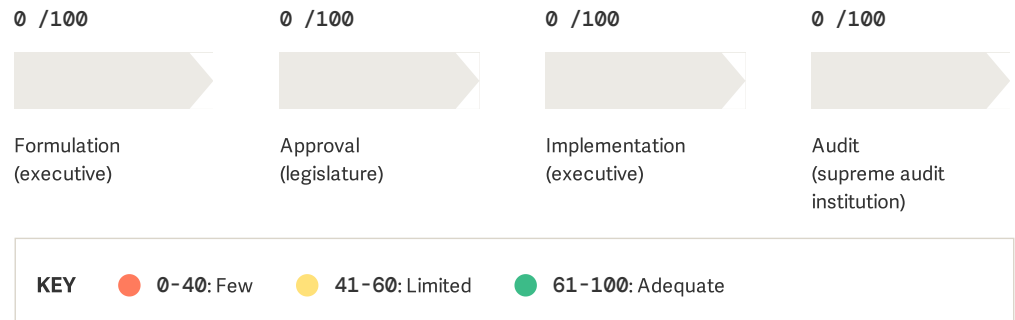

## Recommendations

Tajikistan should prioritize the following actions to improve budget transparency:

- Publish the Year-End Report and Audit Report online in a timely manner.
- Produce and publish the Mid-Year Review online in a timely manner.
- Improve the comprehensiveness of the Citizens Budget and In-Year Reports.
- Publish the Executive's Budget Proposal in a timely manner and ensure it is online and available to the public while it's being debated in the legislature.

# Extent of opportunities for public participation in the budget process

## Recommendations

To further strengthen public participation in the budget process, Tajikistan's Ministry of Finance should prioritize the following actions:

- Pilot mechanisms to engage the public during budget formulation and to monitor budget implementation.
- Actively engage with vulnerable and underrepresented communities, directly or through civil society organizations representing them.

Tajikistan's Supreme Assembly (Majlisi Oli) should prioritize the following actions:

- Allow members of the public or civil society organizations to testify during its hearings on the budget proposal prior to its approval.
- Allow members of the public or civil society organizations to testify during its hearings on the Audit Report.

Tajikistan's Accounts Chamber should prioritize the following actions to improve public participation in the budget process:

- Establish formal mechanisms for the public to assist in developing its audit program and to contribute to relevant audit investigations.

# Budget Oversight

The OBS examines the role that legislatures and supreme audit institutions (SAIs) play in the budget process and the extent to which they provide oversight; each country is scored on a scale from 0 to 100 based on 18 equally weighted indicators. In addition, the survey collects supplementary information on independent fiscal institutions (see Box).

The legislature and supreme audit institution in Tajikistan, together, provide limited oversight during the budget process, with a composite oversight score of **43** (out of 100). Taken individually, the extent of each institution's oversight is shown below:

## Legislative oversight

## Audit oversight

**KEY** ● 0-40: Few ● 41-60: Limited ● 61-100: Adequate

## Recommendations

Tajikistan's Supreme Assembly (Majlisi Oli) provides limited oversight during the planning stage of the budget cycle and weak oversight during the implementation stage. To improve oversight, the following actions should be prioritized:

- The legislature should debate budget policy before the Executive's Budget Proposal is tabled and approve recommendations for the upcoming budget.
- The Executive's Budget Proposal should be submitted to legislators at least two months before the start of the budget year.

- Legislative committees should examine the Executive's Budget Proposal and publish reports with their analysis online.
- A legislative committee should examine in-year budget implementation and publish reports with their findings online.
- In practice, ensure the legislature is consulted before the executive spends any unanticipated revenue or reduces spending due to revenue shortfalls.
- A legislative committee should examine the Audit Report and publish a report with their findings online.

To strengthen independence and improve audit oversight by the Tajikistan Accounts Chamber, the following actions are recommended:

- Ensure the supreme audit institution has adequate funding to perform its duties, as determined by an independent body (e.g., the legislature or judiciary).
- Ensure audit processes are reviewed by an independent agency.

### **The emerging practice of establishing independent fiscal institutions**

Tajikistan does not have an independent fiscal institution (IFI). IFIs are increasingly recognized as valuable independent and nonpartisan information providers to the Executive and/or Parliament during the budget process.

# Methodology

---

- Only documents published and events, activities, or developments that took place through 31 December 2020 were assessed in the OBS 2021.
- The survey is based on a questionnaire completed in each country by an independent budget expert:  
Uktam Dzhumaev  
Consultant  
  
u.dzhumaev@gmail.com
- To further strengthen the research, each country's draft questionnaire is also reviewed by an anonymous independent expert, and in Tajikistan by a representative of the Ministry of Finance.
